Case Study for:  
Barn, Great Totham, Essex - Heritage Statement

Figure 1- Side elevation of barn

**A barn**, part of a farmstead on the edge of the beautiful Essex village of Great Totham was looking to be converted into residential use. The local authority had concerns that the structure may be lost, and requested that a record be taken of the original 18<sup>th</sup> century barn, and any later additions.

Janice Gooch Heritage Consultancy undertook a site inspection and provided an isometric drawing showing the original timbers, together with an impact assessment of the proposed works.
